

NASA Airborne and Field Data Workshop

Data Users: Panel Discussion Questions

Panel:

Liz Hoy, Shawn Serbin, Joe Munchak, Owen Cooper, Fred Huemrich, Alexey Shiklomanov, Tim Bailey, Rebecca Hornbrook

1. From your perspective, what does it mean to you to be a "User of Airborne and Field Data"? What Airborne and Field data are you using?
2. What does a generalized access-to-data workflow look like for you AND what were/are the challenges of data access within that workflow?
3. What are your (or students/colleagues) data challenges? Discoverability? Availability? Access? Data Format(s)? Standardization?
4. WRT airborne and field data, what is working for you that you would want to share with your research community?
5. What are the challenges of Earthdata Search/DAAC data discoverability?

Data Users Panel Discussion Questions

ORNL DAAC
